

CEDAR-X17 service record

Model CEDAR-X17 runs firmware FW-7.2-A. Error E-4097 means cache checksum mismatch. The documented retry delay is 180 milliseconds. Storage capacity is 256 GB. These values belong only to CEDAR-X17, not CEDAR-X71 or CEDAR-X17-R. Support must check the exact model and error identifier before applying a procedure. This is invented test data, not a real product specification.

CEDAR-X71 service record

Model CEDAR-X71 runs firmware FW-7.2-B. Error E-4079 means controller temperature above the safety limit. The documented retry delay is 810 milliseconds. Storage capacity is 512 GB. These values belong only to CEDAR-X71, not CEDAR-X17 or CEDAR-X17-R. Support must check the exact model and error identifier before applying a procedure. This is invented test data, not a real product specification.

CEDAR-X17-R service record

Model CEDAR-X17-R runs firmware FW-7.2-R. Error E-4097R means mirror synchronization incomplete. The documented retry delay is 360 milliseconds. Storage capacity is 1024 GB. This replacement revision is distinct from CEDAR-X17 and CEDAR-X71. Support must check the exact model and error identifier before applying a procedure. This is invented test data, not a real product specification.

Order CDR-2026-017

Order CDR-2026-017 has a total amount of NTD 12800 and a delivery deadline of 2026-10-08. The buyer is Nora Lin. The delivery address is omitted. This order is independent of order CDR-2026-071. Their amounts and deadlines must not be interchanged. This is an invented order for retrieval testing.

Order CDR-2026-071

Order CDR-2026-071 has a total amount of NTD 18200 and a delivery deadline of 2026-10-18. The buyer is Ivan Wu. The delivery address is omitted. This order is independent of order CDR-2026-017. Their amounts and deadlines must not be interchanged. This is an invented order for retrieval testing.

中文文件庫政策

文件庫保留查詢紀錄九十天。使用者可以匯出自己的紀錄。刪除文件後，歷史答案與引用文字仍會保留，但原始 PDF 的頁面連結會停用。刪除查詢紀錄不會刪除文件。文件庫不儲存信用卡號碼。這些規則僅供虛構的測試文件使用。

Faulty equipment exchange policy

A malfunctioning unit is exchanged for a working unit at no charge within fourteen calendar days after the support team receives it. The customer must describe the fault and provide the model identifier. This exchange policy applies to broken equipment. It is separate from the unopened-product return policy. The replacement shipping cost is paid by the support team.

Unopened equipment return policy

An unopened, unwanted unit may be returned for credit within seven calendar days after delivery. The customer pays return shipping. This policy applies only to unopened products and must not be used for malfunctioning equipment. No annual electricity cost, administrator password, or spare-part price is given anywhere in this fictional retrieval lab.
